However, her ability to bounce back from them is simply commendable, especially considering the internal as well as external pressure placed upon the clan to always be better. That’s something her youngest sister has also faced first-hand, as examined on A&E and Lifetime’s ‘Janet Jackson,’ so now if you wish to know more about their bond and her current whereabouts, we’ve got the details for you. Janet Jackson and La Toya Jackson’s Relationship Born on May 29, 1956 (on the 6th birthday of their eldest sibling Rebbie), La Toya Jackson is ten years older than Janet — a difference that seemingly hasn’t affected their connection too much over the years. In fact, having grown up in a relatively conservative/stressful environment, they always had an understanding, which is why they often went to one another for advice. According to the documentary, it was thus La Toya who told her baby sister that if it was something that she really wanted, and if it felt right, she should marry R&B/Soul singer James DeBarge despite being just 18. Unfortunately, things started to change once Jack Gordon came into La Toya’s life, only to go from her co-manager to her abusive, forced husband in 1989. After all, she has since claimed that he not only bullied her into cutting off ties with family, but he also coerced her into stating that her younger brother Michael Jackson may be a sexual predator. “I think this guy who is with her has brainwashed her and made her like this… He has brainwashed her so much she keeps herself away from us,” Janet said of her sister at the time. She was right, but thankfully, La Toya managed to reunite with her family for good upon escaping her spouse. Following her divorce, with the help of her parents and siblings, La Toya Jackson gradually re-learned how to get back on her feet, going as far as to reclaim her place in the spotlight as a singer-songwriter and actress. From performing on live television to releasing new music and from defending her brother on child sex abuse charges to joining the world of reality TV, she did it all. In 2011, La Toya even published an autobiography aptly entitled ‘Starting Over,’ only to go on and land her own series, ‘Life With La Toya’ (2013-2014) on the Oprah Winfrey Network. Since then, she has proudly continued to work in entertainment to move on from her past. Coming to her relationship with Janet Jackson, it appears as if they are now closer than ever. “A big, big Happy Birthday to the beautiful and talented @JanetJackson!,” the Grammy Award-winning songwriter and two-time New York Times Best-Selling author wrote for her younger sister back in 2021. “May your day be filled with joy, happiness, and everything you wish for! sending you lots of love!❤❤❤.” Read More: Where is Katherine Jackson Now? The couple tied the knot in 1989 but divorced in 1997 with a son together named Oche Jackson. She was exiled from her family following her controversial marriage with businessman Jack Gordon. Meanwhile, she claimed that she was a victim of sexual abuse. She stated that her father molested her as a child. Following the controversy of Michael Jackson's documentary Leaving Neverland, a video of La Toya's 26-year-old interview resurfaced in the media where she mentioned that her brother committed a "crime against innocent children". The devastating and disturbing movie premiered on 25 January 2019. The movie is focused on two men who claimed that Michael abused them as children. Check out the clip of La Toya Jackson defending her brother Michael Jackson! She mentioned that her mother was outraged when she found out Michael paying cheques to parents of "little boys" after sexually abusing them. In the rare interview, she said, "There were two cheques that I know of that she has shown me and it’s for a substantial amount of money and she was outraged over it." "My mother is very much aware of the children that were there. All the boys that stayed there. She’s the one who always said that Michael, excuse my expression ‘that f***ot.’ She would say ‘I can’t stand him. That damn f***ot. I can’t stand him.’" “That’s what she would say all the time. She knows it. And now she’s denying it and that’s what hurts.” In 1993, the Jackson family mentioned that La Toya's husband forced her to make false sexual allegations against Michael. When La Toya's comments against her brother Michael resurfaced in the media with the airing of the documentary series, she was estranged from her family. The case was settled out of the court for over $20 million at the same moment years back. At present, she still believes that the claims were true. She mentioned that her mother showed her hush-money payments in huge amounts to the youngest's families. Sometimes, it really sucks being part of a talented family. Even worse when you're the middle child. That was exactly how LaToya Jackson felt growing up. Unfortunately maligned throughout her career, Jackson's life has been dotted with pain and strife. Jackson was born the fifth of the 10 Jackson children. Born on her sister Rebbie's sixth birthday, she was the third daughter born to Joseph and Katherine Jackson. According to her autobiography, described by some as a "tell-all," she first began performing at 16 as part of her brothers' performances as the Jackson 5, where she did a tap-dancing routine. Although she initially wanted to become a lawyer, her father told her to join the family business — namely, entertainment. AllMusic wrote Jackson sang background vocals for her brothers and even appeared in several episodes of the Jackson 5 variety show. Her father also put her, Rebbie, and their youngest sister, Janet, in an all-girl singing group, hoping to replicate her brothers' success. But by 1979, she wanted to go solo, especially since she and her sisters couldn't agree on their group's artistic direction. Jackson released her first solo album in 1980. At first, she wanted to title the album LaToya, just her first name, so that she could distinguish herself from her famous siblings. But her father, who acted as her manager, refused and told her Jackson is her last name, and she should use it. So, the album became LaToya Jackson. Her first solo album yielded modest hits, said AllMusic. Jackson, who was always close to her insanely famous brother Michael, even got him to provide background vocals to her songs. She released several songs and albums, but LaToya just could not find the same success as her siblings. AllMusic even called her the least talented Jackson — unfair, because she did see some popularity outside of the United States. She even was part of the historic "We Are the World" recording, along with dozens of other popular and accomplished artists. In 1987, she met Jack Gordon, who was 18 years her senior. Her father had brought in Gordon to co-manage her career, but slowly the family felt that he was pulling her away from them. It was Gordon who convinced Jackson to pose topless for Playboy. Smooth Radio explained Jackson's mother, Katherine, felt Gordon sought to control Jackson and be the dominating force in her life. Jackson and Gordon married in 1989. During this time, Jackson again posed for Playboy. Gordon increasingly separated Jackson from her family — they believed he was brainwashing her. It turned out that Gordon had been abusing and beating Jackson. People reported Gordon hit Jackson repeatedly with a brass dining room chair, bruising her face and arms. Jackson told the press that she didn't want to marry Gordon but viewed him as an escape from her father, who she claimed in her autobiography had abused her since she was six. In 1993, Jackson wanted out, and reached out to her brother Randy to help her escape. Jackson and Gordon divorced, and she finally returned to her family. When she was still with Gordon, Jackson found her career stalled, and she became a figure of public ridicule. Gordon created several publicity stunts and even said she would star in a pornographic film. Finally free of Gordon's damaging influence, she returned to making music, releasing several songs from 2003. Jackson, though, found more renewed fame in reality television. She competed in Celebrity Apprentice, served as a guest judge on Ru Paul's Drag Race, and was the fourth housemate voted off Celebrity Big Brother (in which her brother Jermaine had also participated). According to Variety, Jackson starred in her own reality show, Life with LaToya, that aired on the OWN Network in 2013. It was during the filming of the show that Jackson's business partner Jeffre Phillips proposed to her. The two did not end up getting married, but do remain business partners. Jackson continues to show up in reality shows. She was in Food Network's Worst Cooks in America and, in 2019, was unmasked as the person behind the Alien in The Masked Singer. After years when all she knew was pain, Jackson seems to be in a much better place. And she's the Jackson creating the least scandal these days.
